---

Steve:

Anything that you originally had to send in as previously BNC, you will need to resubmit. Also, you should go back and look at the AOC and get whatever necessary approvals are required for the change from BNC to Kleinfelder. I think you may have already sent something but please let me know if you have not gotten a response back from the agency approving the change. Also, you need to update the plans as needed to with the changes highlighted so that I can see where they may have changed from the original (I know the schedule needs to be updated).

What are the plans with Superior Crude as a result to the pending purchase? I am going to try to get someone out to do an SPCC inspection on them.

Thanks

Subject: Progress Report

Attached is the November Monthly Progress Report for the Falcon Refinery. Next week we will continue removing waste from tanks 26 and 27. Please let me know if you have any comments to the report.
